

SOCIAL DISTANCING IN COMMON AREAS

Together, we can help stop the spread of **COVID-19**

Keep 6 feet apart from other people

Keep out of crowded places and avoid mass gatherings

Follow person-limit rules in conference rooms and lobbies

No more than 1 person can work in an enclosed office

*Larger offices can have 2 people if they sit greater than 6 feet apart

Why practice social distancing?

It may be possible that a person can get COVID-19 by touching an infected surface or object that has the virus on it and then **touching their own mouth, nose, or eyes**.

However, this is **not thought to be the main way the virus spreads**. COVID-19 can live for hours to days on a surface, depending on factors such as sunlight and humidity. Social distancing helps limit contact with infected people and contaminated surfaces.
